

# Jim Rowland

*Board Member*

Jim is the Chief Technology Officer for DALY. He has 30 years of technology and leadership experience while working as a Chief Technology Officer, Solutions Architect, Project Manager, Service Delivery Manager and Engineer. He has extensive experience working for an IT consulting company in the public sector space in the Mid-Atlantic area. Jim received his Bachelor of Science in Electrical Engineering from Virginia Tech, is a VMware Certified Professional (VCP), and an AWS Certified Solutions Architect – Associate. He has supported IW’s Technology & Data Committee since August 2021 and his firm has assisted with reduced IT cost consulting as well as IT equipment donations to several charitable organizations in Maryland. In his free time, Jim enjoys spending time with his family and their dogs. He is originally from Pittsburgh and still roots for his hometown Steelers and Penguins. Jim believes that helping and serving people in need is an important part of society and something that we all need to do more often.
